Summary: Current law, until January 1, 2016, provides that engineers or land surveyors are not prohibited from practicing or offering to practice, within the scope of their licensure, as a limited liability partnership if specified requirements are met, including, among others, that any offer, promotion, or advertisement by the business that contains the name of any individual in the business must clearly and specifically designate the license or registration discipline of the individual named. Current law repeals these provisions on January 1, 2016. This bill would delete the repeal provisions, thereby extending the operation of those provisions indefinitely.
